

Hervé

Le Mirage

INSTRUCTIONS

For Full Instructional Video please use this link: www.hervedibles.com/mirage

TO UNLOCK - While holding the cap with one hand and the base with the other, push in the button and twist the cap 1/4 rotation to dislodge the locking mechanism, then pull cap off.

TO LOCK - Slide the cap onto the dispenser and turn the cap until tabs line up and cap sits against base, then turn 1/4 rotation in the opposite direction to lock.

TO FILL - Ensure the carriage is in the 'DOWN' position (indicator at 1), place the insert flat side against the thumb tab with odd shaped end facing into carriage and carefully slide the insert down while pressing lightly until only one portion shows. To fit completely in you may have to wiggle insert slightly for bottom section to lock into the carriage.

TO DISPENSE - Turn base clock-wise to push insert up and reveal one section of the insert - bite or snap off each piece.

WHAT IF I CAN'T UNLOCK MY MIRAGE DISPENSER?

As with all mechanical devices, Le Mirage is designed to function accurately, and a critical element of this is ensuring the device is completely CHILD RESISTANT. For that reason it may seem challenging to unlock the dispenser. For video instructions visit www.hervedibles.com/mirage

WHAT DO I DO IF THE DISPENSER JAMS?

If you get candy residue stuck in the carriage or a build-up of candy shards, simply turn the base clockwise until the carriage is in the UP position and run under hot water or place in dishwasher.

WHAT IF THE INSERT DOESN'T FIT IN THE DISPENSER?

First, make sure the carriage (which holds the insert) is in the DOWN position. Place the odd-shaped end of the insert into the dispenser first as it is molded to fit in the carriage. If the insert doesn't go completely into the dispenser, simply wiggle it while pressing down lightly.

DO YOUR INSERTS HAVE ANIMAL PRODUCTS, GLUTEN PRODUCTS OR SUGAR IN THEM?

No. Our Le Mirage inserts are 100% gluten-free, vegan and contain no added sugar what-so-ever. Like all Hervé products, our ingredients are of only the highest quality.

WHAT IS THE DOSAGE OF EACH MIRAGE INSERT?

Our THC-only inserts contain 25mg of THC, while our Full Spectrum inserts contain 25mg of THC and CBD. Each insert is divided into 5 equal portions and each portion has 5 mg of THC. We always recommend when it comes to cannabis follow the simple rule 'START LOW & GO SLOW'

WHAT IS THE ONSET TIME?

Onset time can vary from person to person depending on several factors, but our Mirage inserts are sublingual which provides faster onset. Some may feel the effects in as little as 20 minutes but for others the effect can take an hour or more.

WHAT TYPE OF DISTILLATE DO YOU USE?

We use premium Delta 9 Sativa Hybrid distillate in all of our products. For Le Mirage products we add select high-quality terpenes to accent the flavor and effect.

WHERE CAN I BUY HERVÉ PRODUCTS?

Hervé products are carried at all the best dispensaries in Nevada. Check our website at www.hervedibles.com/find-us for the location nearest you.
